Team evaluation

Write the name of each of your group members in a separate column. For each person, indicate the score to which you agree with the statement using the rating scale below. Extreme scores (1 and 5) will need to be justified with comments as they are reserved for extraordinary events (lack of participation or going above and beyond, respectively).

Rating Scale

- 1 - Did not contribute in this way
- 2 - Willing but not very successful
- 3 - Average
- 4 - Above Average
- 5 - Outstanding

Feedback on team dynamics

1. How effectively did your team work?

Overall, our team collaborated effectively by maintaining consistent communication and supporting each other throughout the project. Responsibilities were distributed fairly among team members, which helped us make steady progress without placing too much pressure on any one individual. When unexpected challenges arose, we addressed them together as a team and ensured the project continued to move forward.

2. Were there any behaviours of your team members which were particularly valuable or detrimental to the team? Explain.

One especially valuable behavior was the team members' willingness to share knowledge and support one another when challenges arose. This fostered a positive learning environment and enhanced the overall quality of our work. However, there were times when not all members participated equally in discussions, which occasionally reduced the diversity of ideas considered. Despite this, by encouraging greater involvement, we were able to strengthen collaboration within the team.

3. What did you learn about working in a team from this project that you will carry into your next group/team experience?

Through this experience, I learned that trust and reliability are just as important as technical skills within a team. When team members know they can depend on one another to complete their tasks, it builds confidence and helps reduce overall stress. I also came to understand the importance of being patient and considering different perspectives before making decisions. In future projects, I will apply these insights to help foster a more balanced and supportive team environment.

Self-evaluation

Compromised and cooperated	5
Took initiative where needed	5
Came to meetings prepared	5
Communicated effectively with teammates	4
Did my share of the work	4
TOTAL	33

My greatest strengths as a team member are:

I am dependable and consistent when completing the tasks assigned to me, which helps the team maintain steady progress. I make an effort to listen carefully to others' ideas and respect different viewpoints, creating a positive and supportive environment for collaboration. Additionally, I contribute by providing constructive feedback that helps enhance the overall quality of the team's work.

The group work skills I plan to work to improve are:

I aim to improve my time management skills so I can handle tasks more efficiently when managing multiple responsibilities. I also plan to strengthen my leadership abilities by taking greater initiative in leading discussions and supporting the team in making timely decisions when necessary.
